

supersite 添加统计代码

1、在 RC 登录页面 (<http://www.resellerclub.com/login>) 登陆你的 RC 账户，成功后，页面转向个人管理后台。

2、通过后台设置--品牌化设置进入 SuperSite2 的管理后台，如下图所示：

The screenshot displays the SuperSite2 management dashboard. At the top, there is a navigation bar with tabs: 产品 (Products), 客户 (Customers), 下级代理商 (Sub-agents), 我的帐单 (My bills), 设置 (Settings), 工具 (Tools), and 帮助 (Help). The '设置' (Settings) tab is active, and a dropdown menu is open, showing options: 管理产品及定价 (Manage products and pricing), 品牌化设置 (Brandization settings), 界面设置 (Interface settings), 财务及支付 (Finance and payment), 产品 (Products), and 其它品牌设置 (Other brand settings). The '品牌化设置' (Brandization settings) option is highlighted with a red box. Below the navigation bar is a search bar with the placeholder text '域名 / 订单ID' and a '搜索' (Search) button. On the left side, there is a '资金记录' (Financial records) section with a money bag icon. The main content area is titled '品牌化设置' (Brandization settings) and contains a sidebar on the left with the following items: 概览 (Overview), SuperSite和PartnerSite (SuperSite and PartnerSite), SuperSite 2, SuperSite, PartnerSite, 控制面板 (Control panel), 控制面板-购物车集成 (Control panel - Shopping cart integration), and 域名服务器 (Domain servers). The main content area on the right contains a message: '介绍新款的SuperSite，优化了用户界面的同时，提升了客户的体验。' (Introducing the new SuperSite, which optimizes the user interface and improves the customer experience.) and a link: '预览新的SuperSite 2' (Preview the new SuperSite 2). Below this is a blue notification box: '建议您现在转移到SuperSite2，因为我们即将停用旧版的SuperSite。' (We recommend you move to SuperSite2 now, as we will be discontinuing the old version of SuperSite.) and a section titled '定制SuperSite 2' (Customize SuperSite 2) with the text: '用我们功能齐全的管理面板自由编辑HTML，CSS，图片和SuperSite 2中的每一页内容。' (Use our feature-rich management panel to freely edit HTML, CSS, images, and every page in SuperSite 2.) and a button: '登录个性化设置后台' (Log in to the personalized settings backend), which is highlighted with a red box.

3、选择你要修改的相应语种的 SuperSite，如下所示：

The screenshot shows two language selection cards. The top card is for 'Turkish (Türkçe)' with a status of 'Under Construction' and a 'Manage Site' button. The bottom card is for 'Chinese Simplified (简体中文) (Default language)' with a status of 'Live' and a 'Manage Site' button. Both cards have a 'Delete' link in the top right corner.

此处我们选择

This screenshot shows the 'Chinese Simplified (简体中文) (Default language)' option highlighted in yellow. It includes the site theme 'MyTheme', status 'Live', and a 'Manage Site' button. A 'Delete' link is also present in the top right corner.

, 点击对应的 Manage Site 按钮, 进入编辑模式。

4、在新打开的页面中, 选择 “Edit/Translate Website Content”, 并点击右边的 “Edit Content” 按钮 (如下图所示), 进入内容编辑模式。

The screenshot shows the 'Edit/Translate Website Content' interface. It features a list of options with checkmarks: 'Add, edit or translate text content of your SuperSite', 'Add new pages to your SuperSite', 'Manage page titles', and 'Manage System messages'. An 'Edit Content' button is located on the right side.

5、选择 Root.html 文件, 点击旁边 Edit (如下图所示),

The screenshot shows a file list with 'Root.html' selected. To the right of the file name, there is a status 'Modified By You' and an 'Edit' button with a pencil icon.

进入该文件编辑模式, 在右边框中相应标签处插入统计代码即可 (一般是插入在 </body> 标签之前), 最后记得清除缓存, 使更改能够及时生效。
