

Cloudflare

方法一：登录 CloudFlare 官网注册。

第一步：打开 CloudFlare (www.cloudflare.com) 的首页。点击 “Sign up now!” (现在注册!)，进入注册页面。

[Compare plans](#)

[Sign up now!](#)

第二步：注册 CloudFlare 帐号：

Create your CloudFlare account

Your email address	<input type="text" value="填入邮箱地址"/>
Confirm email address	<input type="text" value="确认邮箱地址"/>
Choose a username	This will be your ID in emails and wikis. <input type="text" value="填入用户名"/>
Password	At least 6 characters. Make it strong! <input type="password" value="输入密码"/> 
Confirm password	<input type="password" value="确认密码"/>
The legal bit	<input type="checkbox"/> I agree to CloudFlare's Terms of use .

[Create account now >](#)

这里输入正确的信息后，点击 create account now (现在创建账户) 进行注册。相关信息翻译如下：

Your email address (您的电子邮件地址)

Confirm email address (确认电子邮件地址)

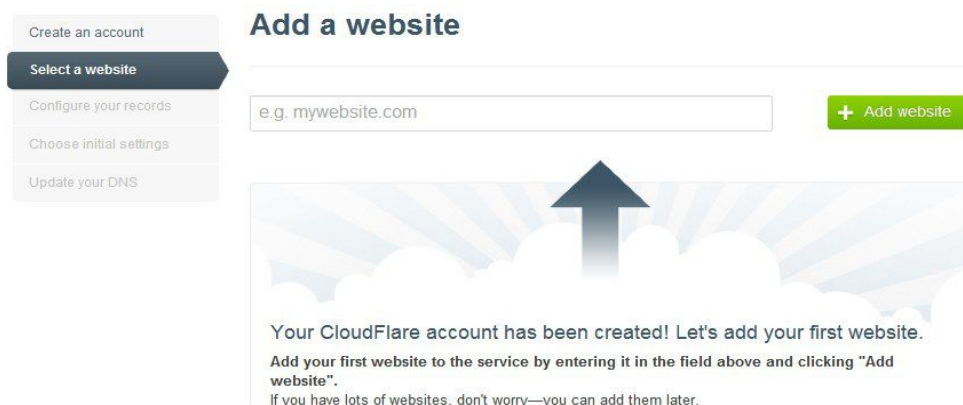

Choose a username (选择一个用户名)

Password (密码)

Confirm password (确认密码)

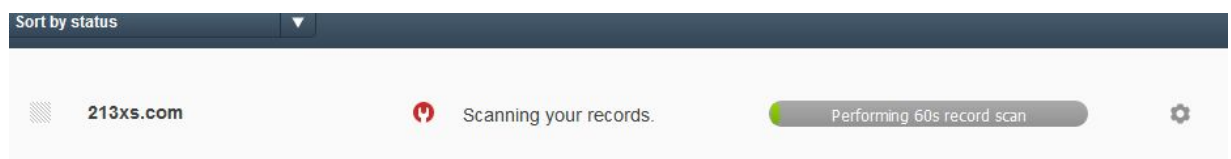

The legal bit (法律条款)

第三步：输入网站域名

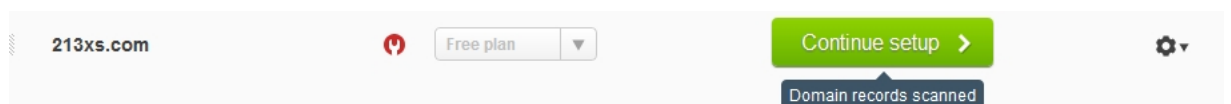

直接输入需要 CDN 的域名，然后点击 Add Website。

然后会出现这样的页面

这里是在扫描你的域名记录，扫描后你的域名记录都会在这里，这样会免去你再次解析域名。

扫描后点击继续 (continue)

- Create an account
- Select a website >
- Configure your records**
- Choose initial settings
- Update your DNS

Configure your DNS records

There are two things for you to do on this step:

1. Confirm your entire DNS zone record is listed below. Our system has found as many records as possible, but it is important for you to verify they are all listed here.
2. Decide which subdomains you want on and off CloudFlare.

On CloudFlare
Traffic will be accelerated by CloudFlare

Off CloudFlare
Traffic will bypass CloudFlare's network

DNS Records for 213xs.com:

[Upload a zone file](#)

Type	Name	Value	TTL	Active
A	213xs.com	points to 118.244.2.99	Automatic	
A	www	points to 118.244.2.99	Automatic	
CNAME	direct	is an alias of 213xs.com	Automatic	
MX	213xs.com	mail handled by 213xs.com with priority 0	Automatic	

points to

Automatic
[Help](#)
[Add](#)

[I've added all missing records, continue >](#)

这里列出了你的域名 DNS 记录，如果不对或者还需添加可以自行更改。然后点击 I've added all missing records, continue (我已经添加了所有的记录，继续)

网页中有这么两句话：

There are two things for you to do on this step (您需要完成以下两步设置)：

1. Confirm your entire DNS zone record is listed below. Our system has found as many records as possible, but it is important for you to verify they are all listed here. (确认以下 DNS 记录。我们的系统已经尽可能多地列出所能找到的相关记录，即便如此您仍需确认该域名的所有记录都完整，正确)
2. Decide which subdomains you want on and off CloudFlare. (确认是否有二级域名也需要使用到 CloudFlare，点击选择“on”或“off”)

另外，若需要增加而已域名的 DNS 记录，请在下方填入相应的域名和记录进行添加。

第四步：配置你的 CDN

- Create an account
- Select a website >
- Configure your records >
- Choose initial settings**
- Update your DNS

Settings for 213xs.com

Below are the recommended performance and security settings for your website. Take a moment to review them. You can also adjust these settings later from your CloudFlare account.

Choose your settings:

Choose a plan

Performance

Security

Don't worry, you can change settings later

You can always adjust these settings later, so don't worry too much about getting them exactly right.

这里可以进行简单的 CDN 配置，你可以按照自己的需求自由设置，如果不懂可以按照如下建议设置：

Choose a plan (选择一个方案)：默认即可

Performance (性能)：CDN only (safest) (CDN(最安全))

Security (安全)：为了不影响正常浏览可以选择 Medium

第五步：更新域名 DNS 服务器

- Create an account
- Select a website >
- Configure your records >
- Choose initial settings >
- Update your DNS**

Update your name servers

The final step is to update the name servers for 213xs.com. To do this, you will need to go to your DNS provider and change your name servers. Once updated, please return to this page and click the green button.

Change your name servers with your DNS provider

Current name servers	Change your nameservers to
f1g1ns1.dnspod.net	▶ lily.ns.cloudflare.com
f1g1ns2.dnspod.net	▶ mark.ns.cloudflare.com

这里只需将你原来域名的 DNS 服务器更改成提供的 CloudFlare DNS 服务器即可。

更改后点击 I've updated my nameservers, continue (我已经更新我的域名服务器, 继续)。等解析生效之后, 网站的访问速度就会有所提高了。

My websites

Congratulations! You've completed the setup for 213xs.com

Our backend is checking for the DNS name server update to take place. In the interim, here are some resources we recommend:

- [Whitelist our IP set with your hosting provider and on your server](#)
- [Review these top tips for new customers](#)
- [Review these basic security guidelines](#)

Optional:

- [Install the CloudFlare WordPress Plugin](#)
- [Follow us on Twitter and Facebook](#)

方法二：登录 Cpanel 控制面板。

选择账户内一款 Linux 主机产品, 点击“管理虚拟主机”, 进入 cPanel 控制面板

MDH Business

多站点主机-Linux(美国) [More](#)

- 管理虚拟主机**
管理FTP账户, 文件, 数据库, 备份, 网站统计等等
- 域名服务器详细信息**
需要将您的域名指向您的网站或电子邮件服务
- 管理员信息**
查看您的主机控制面板登录信息, 临时访问URL等
- 独立IP**
购买和管理独立IP地址, 需要购买SSL数字证书。

[x 删除订单](#)

登录之后, 点击“软件”中的 CloudFlare 图标

软件

- CloudFlare
- CGI 中心
- 站点软件
- Perl 模块
- PHP PEAR
- PHP 配置
- 优化网站
- Fantastico De Luxe

点击 CloudFlare 云状图标激活。(只会显示 CNAME 记录)。点击“Edit”, 可对 CNAME 记录等做设置修改。
